	Naturally quiet cattle that handled easily through the crush during the weighing process. They were a little worried being handled by strangers but settled immediately once back with their mates. The videos give a good indication of their temperament							
Handled With	Bikes , Vehicles							
Assessor Comments	A classy line of Angus steers, bred predominantly from Temania bloodlines. Bred from large frame cows, these steers show							

excellent weight and growth for age being Mar/April drop. They show great shape of body with plenty of lift and stretch, and certainly bred to perform as backgrounders or grow out to bullock weights. Their quiet temperament is shown nicely in the following videos. Some steers were marked with a knife from a different mob, the balance were marked with rings. Vendor is also offering 9 younger steers in the same sale
