Freshly weaned only 3 days ago. Not aggressive but very responsive to your movements. As feeding and daily handling progresses throughout the weaning process I am sure they settle and improve more & more.

Assessor Comments

A very nice small line of V B steers, ideal butcher cattle now OR run on to heavy weight kill steers. Angus & B/B with a very slight hint of dairy X way way back in their mothers. Angus bulls used for several years. Quiet herd of cows and the calves should go down the same path post weaning. Note 4 white belly or navel, very high yielding types in this draft. 2 x 5 in 1, Cydectin Spring drench in September. OPTION: to leave the 2 lightest calves out (298 & 301 kg) at buyers request. Vendor prepared to meet a B/DbI at either NVLX saleyards OR Shanahans T'port depot.
