Assessor Comments	This is a very nice line of heifers account Hassell Trading Trust that weren't required for Joining. They have been grown out on agistment property and have never had access to a bull. The original herd was Simmental/Angus and only Nampara Angus bulls have been used for the last 12 years. More recently a couple of SimAngus bulls have been purchased off Woonallee stud. 4 of the heifers have white on their face or underneath the belly. Approx. 15 of the heifers have light warts on their face/neck. These are nice quite heifers and will continue to grow into very large trade heifers or would make very good cows if the purchaser wished to Join them.
