	Steers were fine to draft and assess, odd animal didn't enjoy confined space of crush. In paddock cattle are inquisitive and mill around people.

Assessor Comments	Fantastic draft of young Angus steers that have real genetic quality, VB steers by Banquet bulls (focus on 400 & 600 day growth). PLEASE NOTE: 14 steers (Rennylea sired) not vendor bred, purchased as cows and calves. This draft has good frame and now gaining serious weight as the season matures (1.4 to 2.2kg p/day) . Post weaning these steers had access to barley and faba beans fed in trough for 8 weeks. Bullock finishers should be making a strong play on these guys. 2 steers cloudy in one eye.
