	Cattle were easy to handle and draft in the yards. Moving away from pressure easily and leading up through the race and onto the scales without any force or encouragement being required. Cattle that an experienced handler would not deem stirry at all, only that they tended to rush a bit through gate ways and want to move away from the handler in a slight hurry. Station bred cattle that were an easy mob to draft and weigh.			
Handled With	Bikes , Dogs , On foot , Vehicles , Polaris Buggy			
Assessor Comments	Good line of station bred young females. Easy to handle throughout assessment. These young heifers have exploded and all picked up a fat score after being tipped out on to fresh pastures for the last 3 weeks. Good supermarket style heifers, with plenty of squareness about them, whilst retaining a bit of softness from the Santa influence. Ideal cattle to continue on as a PCAS body or start on a grain ration. Buyers please Note. 1 minor eye blemishes noted in mob. Approximately 15% presented with whites flanks/udders. 1 with small warts and 1 with a small Vacc lump behind the ear. Please see photos & video for full contentment.
