Assessor Comments An excellent line of feeder steers off "Bringenbrong Station". First time offered on auctions plus, with the start of the spring turnoff of feeders. These steers have been predominantly bought out of the Western districts, as well as some local

purchased steers in the draft. These cattle have plenty of length, shape, and are not carrying any excess fat. Ideal condition to go forward with into 100 day plus grain programs, or carry on and finish on grass. Normally sold direct to feedlots, with return buyers. Please note that there are 5 steers with old pink eye scarring, but not detrimental to the animals performance.
