| Assessor Comments            | This is a line of 205 June July 2021 drop Cashmore Oaklea ewe lambs. These ewes are ideal as an addition any composite flock, or to purchase to background to begin a stand along self replacing flock. The vendor purchased rams annually from Cashmore Oaklea and when selecting sires looks for traits such as high growth rates, low birth weights, high FEC's, positive fat and black feet and noses. This particular line of ewes would suit a maternal operation or a terminal operation, and come with our highest recommendations. |
