Assessor Comments	Excellent opportunity to purchase top line Cashmore Oakley ewe lambs. All ewe lambs weighed 40Kg and above. Given the right conditions these ewes should take the ram in the new year. They would be an outstanding start-up lot or to add to an existing herd. The vendor regulary scans the complete flock at between 170-180%. The wether portion are regually sold at export weights. Ram selection is based on the top 3% of the Lambplan maternal index. Ewe lambs were grain trained for two weeks Prior to weaning and weaned on 23.09.2021 . Ewe lambs Highly recommended.
