Excellent ewes to found a self replacing flock on or use as prime lm dams.The Cashmore Park rams used were selected for Fertility, good early growth and high worm resistance. These ewes are good sound breeders that have withstood the rigors of the high performance, high intensity system they have come thru. Approx 80% of these ewes are ex stud ewes which makes them elite for their breed. Green taggers Sept 2019 drop. All mature ewes Scanned this year at 190% to wean just in excess of 170%.
