Assessor Comments	Annual draft of rising 5.5 yr ewes approx 50% are ex stud ewes. These ewes were scanned as twins and have just recently had lms weaned and were shorn 2 days before assessment with 6 weeks spell on good feed these ewes will turn inside out. These high fertility, high performance low maintenance ewes will go on and do a great job as replacement breeders or to put to Terminal rams. These elite ewes have performed at high stocking rates and under harsh, wet and cold, conditions at Cashmore for 5 yrs and they keep backing up and have live lms every year. The ewes at Cashmore Park scanned at 190% this year and weaned just in excess of 170%. NB 304 this lot also further 480 same age at lease farm.
