Assessor Comments	Presenting a rare opportunity to enter the shedding sheep market with some Cashmore Nudie Ewe lambs. Arguably the best shedding breed to handle wet conditions in my experience. These lambs present well and have not been offered previously as vendor has been building numbers. This particular line of 67 are from a mob of ewes that had not been scanned for Twins and singles, just wet and dry so are a natural line. They are later drops, August September. A tail has been removed from the line. Highly recommended lambs, i have seen first hand how well these sheep perform in our country.
