Any Access To Rams or Stags?	Yes, last access to rams/stags: 15/01/2022
Joining Access Details	These ewe lambs were weaned on the 15/01/22 and have been running with Australian White Rams that were joined to their mums.
Assessor Comments	Offering 500 VGQ Australian White Ewe Lambs. These lambs averaged 31.5kg live at assessment and are majority Aug-Sept 2021 lambs with a small percentage of older lambs born in June - July. The lambs are high content Australian Whites with most coming out of 5th generation Australian White ewes and sired by Tattykeel bloodline rams. This is a great opportunity to secure well bred future breeder ewe lambs that are an entire drop with a 6% tail removed. Please note there were 5 ewes sighted with very light colouration (please see photos), 4 with small black markings on ears and 30 with long tails. Also please note there were some lambs showing signs of light scabby mouth at the time of assessment but still in good condition.
