Assessor Comments	650 VGQ Australian White Wether Lambs. Ideal Lambs for the Processors, with the tail end still suitable to grow out to heavier weights if required. Bred out of VGQ Australian White Ewes by VGQ "Tattykeel" & "Highveld" Australian White Rams. This is the entire drop of Wether Lambs from this joining. There are approx 2% Black or Brown Coloured Lambs & 1 x Lamb observed at assessment with horns. All Wethers have not been Tail Docked. Of the 139 Lambs assessed, there were 3 observed with 1 Testicle still in their stomach, that has dropped down after being ringed at Lambmarking. I didn't observe any others in the backyards but there could be a handful more included. These Wether Lambs are part of a "Run of the Gate" mob that was split into 2 x 6 deck lines at assessment & put into separate Holding Paddocks in case they are purchased separately. Vendor has another 4 deck line of Younger, Lighter Store Wether Lambs at the home block listed in the Same Sale.
