Assessor Comments	165 x genuine 2nd cross suckers, averaging 25kgs at assessment. Out of maiden ewes, that were joined early. These lambs have found it hard to get going due to overly wet conditions. But given crop or nice short fresh feed they will perform. Lambs usually kept till export weights, but need to be moved on. They will remain on mum until delivery A tail has been drafted off. Lambs have been foot bathed due to overly wet season to harden feet.
