Assessor Comments	An excellent quality line of ewe lambs in prime condition, ready to join. SheepMasters are a high fertility shedding breed that puts emphasis on sound structure as well as carcase, and these ewe lambs are certainly true to type. These ewes part of the vendors commercial flock dispersal as they start to focus on their “Wild Oat” Sheepmaster stud. A small % of this mob show remnants of primary photosensitisation. Odd ewe with brown spots on face and legs and one ewe observed with small horns. There are 375 ewes in this draft, to be offered as 3 lots of 100 and 1 lot of 75, a run out the gate. Vendor also has 90 spring drop ewe lambs in same sale.
