Assessor Comments	The lead of 1500 well bred, 2nd x Shorn, weaned lambs. 100% of lambs have been weighed and they are all 40 kgs plus. All the work has been done for you. Second draft of 625 being offered as well. There is a lot of genetics in these lambs with the ewes being composites and the Rams are white suffolks, selected of high indexing LEQ . Rams are Kyanga & Waratah blood. There is plenty of shape and bone in these lambs and will make nice trade lambs or could be grown out to extra heavy export weights. Lambs are in fresh, sappy, healthy condition and are full of life.
