Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.		
Assessor Comments	An exceptionally well bred & presented line of bare shorn feeder lambs. They are predominately sired by high indexing, 'Iona' White Suffolk & Poll Dorset rams out of large frame BL/Mer & Composite ewes, approximately 13% are sired by 'Boonerah' Coopworth over 1st x ewes. They have been grazing a summer crop whilst being supplemented with vetch hay for the past 2 weeks & certainly appear to be "on the do". Approximately 6 lambs in the mob did have some very minor scald at assessment, all lambs were foot bathed & will be checked thoroughly prior to delivery. They were shorn on 10/1/22, drenched with Zolvix Plus & back lined with Extinosad. Carrying some exceptional genetics, they have the ability to reach heavy export weights in a short period of time, they will not disappoint!!! All lambs individually weighed from 35-43kg. **Please note** The second draft of lambs is also in this sale.
