Assessor Comments	Opportunity to purchase ideal lambs to top up in a short period of time, these lambs are suited either on quality stubbles with plenty of time with age or in a feedlot. 2nd draft from the drop with the tail end removed, they present healthy and with plenty of energy. Have been running on a a standing oats crop since weaning which id now basically depleted and more recently they have been fed oats in a feeder and supplemented with hay in that same paddock. Vendor usually tags all his xb lambs with orange tags but used up some excess light blue tags in this lot. You can buy these lambs with confidence they are genuine well doing lambs.
