Assessor Comments	A very good quality line of vendor bred white dorper ewes, good frame and growth, typical white dorper shedders. (at assessment 47 - 66 kg to avg 59.6 kgs, 4hrs off feed). Have been running with Boonoon white Dorper rams until scanning on 13 th Jan 2022. . Vendor commented that there could be a good number early in lamb. These ewes are particularly well bred and would make ideal replacement ewes. An obvious tail has been removed. Note other lines of similar ewes in this sale!
