Assessor Comments	A very good quality line of vendor bred Dorper/white dorper x ewes, good frame and growth, typical Dorper/white dorper shedders. (at assessment 51- 71 kg to avg 60.5 kgs, 4hrs off feed). Have been running with Boonoon white Dorper rams until scanning on 13 th Jan 2022. . Vendor commented that there could be a good number early in lamb. These ist x ewes are particularly well bred and would make ideal replacement ewes. An obvious tail has been removed. The 6.5 & 7.5 yo ewes on good feed are sound to breed but some are worn in the mouth. Note other lines of similar ewes in this sale!
