Assessor Comments	A very good quality line of vendor bred white dorper ewes, good frame and growth, typical white dorper shedders. (at assessment 46 - 70 kg to avg 59.2 kgs, 4hrs off feed). Have been running with Boonoon white Dorper rams until scanning on 13 th Jan 2022. . Vendor commented that there could be a good number early in lamb. These ewes are particularly well bred and even with there age, on good feed would produce another lamb. There is also a good fattening opportunity to take these ewes to a mid 30 kg carcass kill weight. An obvious tail has been removed. Note other lines of similar ewes in this sale!
