| Assessor Comments            | Ewes were assessed after a shower overnight with moisture in the wool tip . Season has been too good so ewes bound up somewhat with seed & burr , they need shearing which will give them a lift in readiness for an improved joining . The vendors flock is known as bale fillers , there were 5 of the assessed ewes with scur . In their working clothes however with a little work there is lifetime of breeding is front of them. |     |                |     |               |     |
