Assessor Comments	A tidy line of young 1st cross ewe lambs. These ewes are well grown with plenty of stretch and bone and will grow into large framed dams. The majority are out of merino ewes however there is around 20% that are out of Dohne ewes purchased ex Western Australia which are showing to be plainer on the points and the bellies Please note that there is a very small percentage that were shorn in December hence the shorter skins This vendor also has another 255 of the younger sisters in this sale
