Assessor Comments	An unfortunate sale due to loss of country with flood water over the past couple of months. These ewes were purchased back in August Ex Auction plus from the Walgett district as a mob of 680 SIL ewes, which on arrival were split into 3 mobs run out the gate for management purposes. These ewes considering the past couple of months of wet weather are holding up extremely well and doing a great job on there lambs. All lambs were marked at the end of October, but at assessment noticed a small handful of late lambs unmarked. At assessment there were a small % of lambs with a start of fly which were treated on that day and the balance of the lambs were back lined with coopers fly & lice. A very good % of blue tag ewes were mouthed which all had very good solid blocky mouths, finding no broken or wear at all. A great opportunity to buy a line of ewes to do a job with. Please note this same vendor has 2 other lots of the same description in this same sale.
