Assessor Comments	On offer is an ideal smaller line of scanned in lamb Dorper and White Dorper ewe lambs, March/April 2021 drop. These ewe lambs are from a self replacing flock based on Kaya Dorper and Etiwanda White Dorper blood. They are well grown for their age and present in very good condition. The Kerin family has selected heavily on fertility and these ewe lambs are bred from a cohort of ewes which have never missed rearing a lamb. The family has also not shorn any Dorpers for 8 years and these ewes will not required shearing. Ewes are SIL to Kaya blood Dorper and Etiwanda White Dorper rams to commence lambing at the start of March for 5 weeks. A great opportunity for the smaller farmer to secure a line of quality young ewes already SIL and with years of production ahead of them, or for the larger breeder to top up numbers.
