Assessor Comments	659 Collinsville blood merino ewes lambs, these ewes where purchased from a local dispersal sale and have grown into nice heavy boned ewes with plenty of depth and stretch for there age. Late Sept shorn and cut 2kg of fleece at 18.5 mic. They have recently been drenched and vaccinated as well as fly prevention treatment put on them. There was 3 ewes that I noticed in the line that have previously been treated for fly strike. Small amount of dry dag on them. These ewes avg 49.1 kg at assessment after a 7 hour curfew.
