Assessor Comments	Dual purpose Wethers that present a money making opportunity. These wethers have a very good genetic history being Bindawarra Blood from a Roseville Tara Park Base. Presenting in predominantly in 1 score condition, wethers that are all frame and carrying very little cover. These sheep have not been spoilt, grazing basic unimproved Native pastures and will explode on the feed or with a crop underneath them. Wethers have yielded well in their wool, cutting an average of \$40 without carrying any difficult folds. Please see photos and videos for full contentment.
