Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	Offering 409 Boonerah blood, young composite ewes over 2 lots. A very well presented draft of young ewes presenting in prime condition. The Glenample flock has consistently acquired the best genetics available over many years with a focus on ewe robustness, leading to excellent lamb surviveability and fertility. This is highlighted by a flock average of 150% lambs marked this year and low ewe mortality in a harsh coastal environment. Ewes are Boonerah blood, Aug/Sept 2020 drop, are up to date with vaccinations and had a recent drench. They are generally moderate statue, deep bodied, heavy boned sheep. These ewes have never seen the ram, having been carried through as potential replacements, but are now surplus to requirements and being offered to market. A terrific opportunity to purchase ewes with quality genetics, bred to perform, and in top condition (NOTE: two lots of 204 & 205 head offered as a run out the gate).
Assessor	Nick Maddison (Level 1 Accredited)

Delivery Period	19/01/2022 to 25/01/2022 (7 days)
Delivery Point	Stock will load at 2600 Princetown Road, approx. 5km north west of Princetown.
