Ran with teasers for 14 days pre joining.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |            |                           |
| Assessor Comments      | 137 x WS/EF/CORR ewe hoggets. Breed composition: 62% White Suffolk, 13% East Friesian & 25% Corriedale. These ewes present in very good condition after 80% of them lambing as lambs and having their lambs weaned in mid October. All aspects of their joining have been done right, primed on lupins for 7 days pre and post joining plus being run with teasers for 14 days before the rams went in. The Boonaroo sheep would compliment and improve any flock. This is a great opportunity to purchase an outstanding run of vendor bred sheep with absolutely everything done right and bred for heavy lamb production. PLEASE NOTE - The vendor has a total of 5 lots in this auction for a total of 666 unjoined ewe lambs and 239 joined breeding ewes. |            |                           |
