Assessor Comments	26 Station mated ewe lambs well grown and in great condition after having a fantastic season these are a little line of couloured ewes from the main line of 391. These ewes are of the same quality as the line of 300 they just have some colour. The Greenfields have been focusing on easy doing large frame, fertile sheep and this shows in these young ewes, with plenty of years ahead of them these ewes will make excellent breeders for many years. They were bred on the vendors northern property and brought down to their farm over time. Billa Kalina will offer another 2 lines of 300 & 65 White Dorper ewes lambs to make 391.
