Assessor Comments	A nice line of 2018 drop Merino ewes. These ewes are in ideal condition to join to a ram of your choice. Ewes were purchased to produce xbred lambs and due to a slight change in direction the Watsons have decided to move on 1148 (2 X B doubles) of this age group, they present an excellent opportunity to get into a big line of breeding ewes in the prime of their lamb producing lives. I noticed 4% of our assessment mob had slight horns. The Watsons have another 5 lines (1018) of White Dorper, UltraWhite and UltraWhite X sheep in this sale and 2 lines (1148) of Merino ewes.
