Assessor Comments	104 Crossbred X Mixed Sex Weaners (57 Steers & 47 Heifers). A prime opportunity exists as these weaners have been yard weaned and educated, highlighted as being quiet and great to handle while flowed extremely well through the yards, race and crush. The majority of these calves have been out of purchased cows that were in calf, the sires are unknown but to the best knowledge by Charbray, Composite and Brahman Bulls, while 10% are by Texas Angus Bulls. Normally grown out to feeders, here's your opportunity to grow out into heavy feeders or keep the heifers as replacement females. With all weaners being weighed, RFID's recorded. 6 head of brahmans displaying hump, while 20% slight hump and the balance flatback, see photos and videos for better understanding.
