	Typical weaners not long off the cows so at this point they have had limited handling. They will be tailed out and handled further between assessment and delivery so would envisage these will settle down a bit by then. They are not yard savy just yet so are easily spooked and most will always follow ring leaders. Nothing that could be described as aggressive in the mob in the bigger yards though. These tend to gallop about a bit and need to be steadied down through a gateway, not unusual.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs		
Assessor Comments	The Consuelo EU ACCREDITED Santa backgrounder steers that come with a great reputation. Regularly offered on A+ that always attracted plenty of repeat buyers who have commented on the great performance these steers deliver them. Most show very good bone and muscling and depth of barrel. These steers have definitely had no sign of a setback. They are loaded with eye appeal and have a stack of breed character. Lightweight steers ideal for restockers to put away for the long term. Clean country buyers note they are offered GUARANTEED CLEAR of the dip. Noted approx. 2% with a small amount of old Buffalo fly rub and a small number with old ring worm scarring, no issues expected here. Also about 4 in the total line that were later cut and still show a bit proud but should dissipate over time. Also a few with some white markings on them. 8 decks (341) of these steers in 4 lots to be delivered into even lots if purchased by different buyers. Unsure of dipping protocols?? Call the assessor.
