These steers were purchased ex local store sales and auction plus throughout last years autumn and winter. They've performed extremely well, grazing on winter forage crops and more recently Italian rye grass. These steers have been vaccinated with Bovillis MH + IRB & 5in1 in mid October to suit feedlot requirements. As can be seen in the videos these steers are extremely quiet and moved through the assessment process with ease. Please note that three steers display minimal white on the udder and 3 steers carry an old pinkeye scar in 1 eye that does not affect vision.
