Assessor Comments	This is the top draft of 40 Angus steers. At only 10-11 months of age and 400kgs they show great weight and growth for age. Weaned earlier this month they are really starting to power ahead. They are in great condition and would be ideal to start on grain or hit a crop situation. They are good fleshy steers showing all the true Angus attributes of length and depth of body and good bone and muscle. They have had a good start to life and with the right situation they will continue to hit all desired markets. There are 4 Black Baldy calves in this lot. 1 steer had a small spot of pink eye that was treated with spray at assessment.
