Vendor Comments	Very easy to handle line of steers. Bred from a line of Lawson blood cows that were purchased from the Southern Highlands as PTIC to a Lawson blood Angus bull.

These steers handled very well. They were calm and looked like they should be able to handle a new environment with			

Handled With	ease. Bikes , On foot
Assessor Comments	This is a good smaller line of steers that have shown good weight for age and should be calm enough to continue doing well in a feeder environment. The vendor purchased a line of PTIC Lawson blood cows from the Southern Tablelands and this is the complete drop of the steers, with the vendor retaining the heifer portion. All nine were milk teeth, with just 1 showing a bit of spread between the front 2. (see photos). 5 steers show light old ringworm scarring with 1 showing medium scarring. These steers appear healthy enough to continue growing out to a heavy export steer.
