Handled With	Very quiet cattle and a pleasure to handle. A lot of emphasis is put on the temperament of this herd and the results are evident in these weaners. These weaners are docile and move easily. Bikes , On foot , Vehicles

Assessor Comments	Complete drop of Angus steer weaners that are powering forward aided by a soft summer. Steers that have plenty of upside having been weaned 6 weeks ago and showing good growth for age with weight to gain. These steers were a pleasure to handle through the yards and in the paddock. These steers are 100% grassfed and antibiotic free. They have been bred out of large framed Angus dams by quality Reiland and Hazeldean blood bulls. The quality of the genetics used and the strict selection criteria for replacement heifers is evident in the temperament and growth of these steers given their weight at 9-10 months of age. These steers are normally sold to repeat buyers and grown out to bullocks. Animal health records up to date so no work is required after purchasing these steers. Buy with confidence and should you require any further information please call.
