Assessor Comments	***EU*** Mixed age Hereford cows with calves at foot. This is the absolute last of the Tirranna cows that will ever be offered by the vendors. Cows sired by Stannum & Ironbark stud bulls. Calves sired by Tirranna Hereford & Poll Hereford bulls. The progeny of this herd are renowned doing cattle on grass or grain. These heifers are bred from a good doing herd of cows that milk well & perform well breeding progeny that are well sought after often by repeat buyers. The Tirranna program has had a long focus on selecting Hereford sires with high growth, EMA EBV's in the top 20% of the breed & true muscle & butt shape. Ideal cows to add to a herd or grow out & split. 1 cow blue eye not considered detrimental. Calves are in fresh condition. Owners scales checked & used.
