Handled With	Heifers handled well in yards, odd heifer stirred in crush or when confined. Cattle have been handled exceptionally well with capable stock men on horses using dogs. 2 heifers were agitated after weighing process. Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	A run of Ultrablack PTIC females purposely joined to Angus sires to amalgamate into the heifer operation. Heifers present in store to forward condition, they have been running on native pastures in the hills. Heifers will continue to grow out if given the opportunity into future breeders. A great opportunity to secure young breeders with their lives ahead of them. Heifers handle very well through yards and although not assessed in the paddock when heifers came in they looked to handle very well with horses and dogs. In total offering of 120, Heifers will be delivered as a run out the gate over 2x60 lots
