Assessor Comments	A good line of Angus and Angus cross heifers 26-28 months of age with 2-4 month old Angus calves at foot and both are Booroomooka blood. These heifers have been redpastured to the Millah Murrah Angus bull since early November and bull will be taken out at delivery. There is 4 cows with white on udder and 1 cow with blue scar on eye. In the calves the bull calves can be marked before delivery if requested, 2 calves have blue scar on eye, 2 have small scurs and there is 2 black baldy calves. The cows are in good store condition milking well for sizeable calves at foot and would power away on good feed. Opportunity to purchase a even line of quiet future breeders and with the size of the calves at foot there is a good chance of being back in calf.
