Assessor Comments	A very good line of Sandon Glenoch blood Angus cows. In the prime of their life and showing the full benefit of the outstanding season experienced across the central tablelands district. Preg tested in calf to Angus sires for the desirable July / August calving slot these matrons will go straight on to breed you the big weaners we all chase for the autumn markets. Please note one cow does carry a complete blue eye, however, is not considered detrimental. Cows worthy of a close look that will fit straight into an existing breeding operation to supplement numbers or ideal for someone with a smaller acreage looking for breeders to take on and enjoy.
