Handled With	Bikes , On foot , Vehicles																								
Assessor Comments	20 Angus heifers that are PTIC to the Trojan shorthorn bull. The bull has been chosen on calving ease and birth weight. Heifers are from large framed Gilmandyke and Rennylea bloodline Cows and they have grown out extremely well. The Heifers were joined from 3/6/21 and the bull was in until 15/12/21. Scanned in Calf mostly from 150 days plus, Heifers are showing signs of softening down and uddering up, to commence calving march. These heifers would make great future breeders. 2 Heifers have white spots on their udder, 2 heifers have old pink eye scarring considered not detrimental. Same vendor has 2 more lots of PTIC Heifers in same sale, Opportunity to put 45 PTIC heifers together
