Assessor Comments	An opportunity to secure a very nice small mob of straight bred Hazeldean blood heifers that are only being sold as they are surplus to requirements. Joined for only eight weeks, to a proven easy calving Hollywood Angus sire, these young ladies

warrant a close look. In pretty much perfect condition, they have plenty of frame and scale and should mature into very nice young matrons. Two heifers were observed with a small amount of white in front of navel but nothing i would consider offensive. Please note the heifers were left locked up after preg testing the day before with access to water but not on feed hence the 0% shrink. The tight calving will set these heifers up for a very productive life and will slot into just about any breeding operation. From a long standing and well renowned district breeder, take the time to consider closely.
