Assessor Comments	Vendor bred PTE heifers. These heifers were joined from 6/07/21-01/09/21 and did not fall pregnant (certificate in photos). At weaning these heifers were classed out for simply being lighter in weight at the time. They have had access to quality feed since and have grown out nicely. These heifers are a good weight and are in ideal condition to join to the sire of your choice or for feedlot entry. These heifers worked well through the yards responding correctly to pressure and moving as required. Please note vendor is offering 62 PTIC heifers in various lots joined to the Angus bulls for the same period and 20 PTE sisters in todays sale.
