Temperament	Yards Crush Paddock

Quiet: 14 head
Slightly Stirry: 4 head

Quiet: 14 head
Slightly Stirry: 4 head

Quiet: 17 head
Slightly Stirry: 1 head

These heifers haven't had extensive handling through yards and could appear flighty when under pressure, that being said they were yarded and processed straight away. They would settle as soon as back with their mates. The video or heifers will give a more accurate reflection of their normal temperament. Out in a large paddock they will come to the car

Handled With

Bikes , On foot , Vehicles

Assessor Comments

19 Angus heifers specifically purchased as 15 -16 months of age to join and calve down as genuine 2.5 year olds. These heifers have been joined to Stud LBW Riga Angus bulls to commence calving 5th March for 7 weeks. Heifers show good maturity and present in ideal calving condition by not being to over done. Some heifers could become a bit flighty when separated on there own but handle quietly in a large holding yard. 1 heifer showed old pink eye scar but not detrimental. 1 heifer with brown coat retained. 2 heifers with a white belly. Vendor has 24 Angus Hereford x heifers PTIC in the same sale.
