	Slightly Stirry: 1 head		Slightly Stirry: 1 head		Paddock			
			Stirry: 1 head					
	One cow presented stirry on arrival, the temporary panels and lack of facilities no doubt were the main cause. Once back in the paddock cows seemed quite settled and were as normal

Assessor Comments	Small line of Medium framed PTIC Angus cows. Joined to Fernliegh Angus M64 for a March/April calving. Cows have just had big calves taken off two weeks prior and were presented in Store condition. On assessment one cow was very agitated which video will show, the lack of facilities and the conditions of the yards would most likely be the cause of temperament. One cow also presented with both eyes having pinkeye scaring, however she did not appear to be detrimental. Cows were all mouthed with eight teeth showing and are sound of mouth. Opportunity holds for those seeking an investment opportunity or seeking to build numbers. Priced accordingly
