Assessor Comments	Final stage of "mainland breeding dispersal" Fingal Pastoral bred Angus PTIC heifers offered in two lots 29 & 30 (59 total) Heifers will be drafted into two even lines at delivery mirroring assessment, NOT RUN OUT GATE. These females arrived PTIC at Eynesbury in 2020 to top up the mainland breeding program. Females calved unassisted in autumn given the property's size, and successfully raised calves that were weaned in late September. Heifers were in light condition given the season and trucked to agistment property at Mumbinnar. Females now present in fantastic order for Mar/Apr calving. Young breeding females with real quality that are hard to acquire during a national herd rebuild. Also offered will be 33 (4 yrs) in sale. 8x white udders, 1 treated for active pinkeye at assessment.
