	Please bare in mind these cows were trucked from Mumbinnar the week between Christmas and New Year. Females that have been on mainland agistment for more than 12 mths. Limited handling during that time.																								
Handled With	Bikes , On foot , Vehicles																								
Assessor Comments	Final stage of "mainland breeding dispersal" Fingal Pastoral bred Angus PTIC cows 4 yrs. These females arrived PTIC at Eynesbury in 2020 to top up the mainland breeding program. Females calved unassisted in autumn given the property's size, and successfully raised calves that were weaned in late September. Cows were in light condition given the season and trucked to agistment property at Mumbinnar. Females now present in fantastic order for Mar/Apr calving. Young breeding females with real quality that are hard to acquire during a national herd rebuild. Also offered will be 59 (3 yrs) in sale. 7x white udders, 1 cloudy eye.
