Assessor Comments	Nice line of PTIC Angus Cows from the Pickup Pastoral Company, these cows are account the breeder and are being sold as part of a complete herd dispersal as the property has been sold. The herd has been based on Landfall Genetics for the past 15-20 years and no money has been spared on the purchase of bulls over this time. They have been joined to Rennylea P537 from 10/5 to 1/10, P537 is rated 0.6 for his birthweight, and they present as medium to large framed cows in ideal calving condition. Cows were good to handle as a mob but got a bit agitated whilst in the race.
