Slightly Stirry: 4 head																																
Handled With	Bikes , On foot , Vehicles																															
Assessor Comments	This group of Cattle represents a reduction sale for the Vendor who is reducing Female numbers, they are a preg tested group of females that represent the later calvers of an age group. Large frame quality Females in forward to prime condition with capacity and volume. Drafted from the Matrons of the Willalooka Herd that have stood vigorous classing over the years from Dick Whale. These Females have recovered well from the weaning of calves early November and will not require much to hold their own leading up to calving.
